

## *Way to Amazonia 2*

---

**Jane H:**

I hate to put reality into such a lovely story but charging equipment needs electricity to run.

**johannah responds:**

there are solar powered battery rechargers, so the dildo dykes don't dissolve into lavender dust....:)

**Christina:**

"Well, since I am currently unemployed I will sign up for the Euro Dyke Police team. 10 years of being first a girl- and later a boy scout must make me eligible for that. Not to mention the fact that I love to go packing.:) (Somehow I don't have to pack for people to mistake me for a man - it happens all the time.)"

**Bunny:**

"Where is Amazonia? Can I use my frequent flyer miles? Can I offer my services as baggage handler? Please? Please?" (Bunny is on the floor begging and groveling)
